REQUEST TO DIVIDE APPLICATION

Commissioner for Trademarks
ATTN: ITU/Divisional Unit
P.O. Box 1451
Alexandria, VA 22313-1451

Pursuant to 37 C.F.R. §2.87, Applicant hereby requests that the above identified application be divided. In accordance with the Request for Reconsideration after Final electronically filed with the United States Trademark Office on October 13, 2008, the following classification of goods has been amended to 1(b) filing basis:

Computer software for use in the provision of customer care and customer relationship management services, namely, for use in managing and accessing databases for receiving and responding to sales, service, technical support and general information inquiries of customers of others, and for use in enabling customers to integrate interaction and transaction handling technologies and services to execute a complete customer service and back-office strategy including prioritizing interactions across multimedia, multisite, and multiskill customer care environments; computer software for workforce management applications including forecasting, scheduling and adherence functions to determine customer contact volume across multiple mediums in order to address the needs of customers of others; computer software which groups call systems and tools needed to address interactions with customers of others and directs call flow by appropriate scripts that may be downloaded from a global computer network; computer software for data capture and reporting to identify, track and act upon customer interaction trends that may be downloaded from a global computer network; computer software to track move/add/change requests made by others and provide issue resolution

Mark: CONNEXIONS and Design

coordination that may be downloaded from a global computer network; computer software for automated root cause and trend analysis which compiles contact data, customer data and business process data for trend analysis within and across customer support systems of others, in International Class 09.

This request is made so that the parent application may proceed to registration. Please retain the following services, already in use in commerce, in the original application:

Customer relationship management services and customer care services for others, namely, managing databases and receiving and responding to sales, service, technical support and general information inquiries of customers through a variety of media, and enabling customers to integrate interaction and transaction handling technologies and services to execute a complete customer service and back-office strategy including prioritizing interactions across multimedia, multisite, and multiskill customer care environments, and providing customers with multicultural marketing solutions and speech-driven navigation tools; employment agency services; management of customer interaction management centers providing customer care and customer relationship management services, in International Class 35;

Telecommunication services, namely, providing telephone, electronic mail, and automated call services and providing multiple-user access to a global computer information network; advanced computer telephony integration for intelligent routing and operational efficiency across all media; and computer telephony integration including email, chat and other custom media types, in International Class 38; and

Computer programming services for others, application service provider services, namely, designing, installing, integrating, networking, hosting, operating and maintaining computer software for others, namely, for use in enabling customers to integrate interaction and transaction handling technologies and services to execute a complete customer service and back-office strategy including prioritizing interactions across multimedia, multisite, and multiskill customer care environments; automated call center services; database development services in the field of customer care and customer relationship management which simplify workflow, consolidate legacy applications, and drive consistency of customer interactions; product research and development for others; computer telephony integration, namely, email and computer disaster recovery planning services, in International Class 42.
